## WORK EXPERIENCE

### Software Engineer

#### Thoughts2Binary Consulting And Solutions LLP

03/2022 - Present

Gurugram, Delhi NCR

Achievements/Tasks

- **Magento Plugin Developer**
- Provided new easier checkout custom Payment Gateway using Stripe API to enable customers to place orders using cards
- Plugin earlier was compatible with version Magento 2.0.1 only but required major changes in the architecture to get it compatible with Magento 2.4.3 and then again later for 2.4.5 version

### Associate Software Developer

#### Thoughts2Binary Consulting And Solutions LLP

03/2022 - 03/2023

Gurugram, India

Achievements/Tasks

- **Wordpress Plugin Developer**
- Added custom payment Gateway using Stripe API to enable customers to pay using cards
- Added custom Tax functionality for clients requiring customers to be charged according to state tax law

### Software Trainee

#### Kent RO Systems Ltd.

09/2019 - 04/2020

Noida, India

Achievements/Tasks

- **Amazon Online Data Scrapping**
- Aim of the project was to list various sellers selling restricted Kent RO products along with price variation. About 54% of sellers were identified and disabling their listings.
